EUROSAFE GLASS FILM

SHATTER RESISTANT TECHNOLOGY

EuroSafe Glass Film is a highly transparent film that is applied directly to the surface of our glass shower panels, which provides added protection against the infrequent occurrence of glass shattering by keeping the glass fragments together.

FEATURES

- Reduce the risk of serious glass-cut injuries, resulting from individuals accidentally coming in contact with a glass door or breaking a door
- Security feature that reduces potential for liability, for added piece of mind
- Highly transparent - does not alter the appearance of the glass
- Durable and tested for long term usage in hotel environments
- Hassle free - simply clean with a soft cloth and water (avoid abrasive cleaning products)
- EuroSafe Glass Film is pre-installed by our factory to add value for your hotel project

DID YOU KNOW?

Glass shower doors can greatly enhance the guest experience at your hotel as well as positively impact your bottom line by the upgraded bathroom space. Enhance your space and keep your guests and staff safe by using EuroSafe Glass Film today!

EUROSAFE GLASS FILM

SHATTER RESISTANT TECHNOLOGY

CLEANING & MAINTENENCE

- Simply clean with a soft cloth and water or with a squeegee
- Typical, non-abrasive cleaning products used to clean shower glass may be used
- Avoid using any harsh chemicals such as bleach or ammonia, or abrasive tools
- Cleaning with a soft cloth and using a mixture of water & vinegar is recommended

ATTIC STOCK

When placing your order, we recommend purchasing an additional 5% of glass panels with EuroSafe Glass Film to keep on site at your hotel. EuroSafe Glass film is applied directly to the surface of the glass by our overseas factory and in the rare case of a shower glass panel shattering, having a few backup panels on site will help keep your operation running smoothly.
